All training classes are infused with one goal – to allow attendees to help healing themselves and heal others of mental, emotional and physical problems through homeostasis and body-mind-spirit balance.

THE MECHANISM FOR HEALING

IS RESONANCE

“When two systems are oscillating at different frequencies, there is an impelling force called resonance that causes the two to transfer energy from one to another. When two similarly tuned systems vibrate at different frequencies, there is another aspect of this energy transfer called entrainment, which causes them to line up and to vibrate at the same frequency.”

Address:

Everything in the world is a vibration. Each thing operates at its own unique frequency to maintain balance and stability. If the frequency of an organ or emotion is too high or too low it is out of balance, there is disease.

Tune & Heal CRT uses RESONANCE together with the power of V Elements and TCM as homeostasis process, to restore the organ or emotion to its proper frequency. It creates resonance with the vibration of sound (voice, music, tuning forks) to heal the human body, mind and spirit simultaneously. Recent findings now embrace resonance and vibration as the next leap in quantum physics and human development.

TUNING FORKS

During the 4-Part Certified Training Course, attendees have access to all 11 sets of Tune & Heal recommended tuning forks, specifically created for Cellular Resonance Therapy. These tuning forks have been designed and manufactured using special alloys and manufacturing processes which provide for the precise vibrations needed to bring human cells back to their healthy state. They are available for purchase before/after the course.

Most students start with a few sets of tuning forks but 8 Harmonic set and OT64Hz are required for practice during the course.

To become Practitioner, your investment is \$650 for level 1+2 and \$650 for level 3+4 of the 4-Part Certificate Program. The level 3+4 will take a place in a couple of months after 1+2. Time between is used for the practice.
